Background record

AUC, Arquitectura, Urbanismo y Cooperación, SL, was set up in 1996 by a group of professionals with extensive experience in the fields of Architecture, Town Planning and Cooperation for Development, as its Spanish name shows. Based in Madrid, Spain, its managers are Maria Luisa Cerrillos and Rafael Fontes Muñoz.

The company was established with a primary objective: to use the wide experience of its founding members in a common endeavour, capable of offering technically superior answers to a increasing range of problems, present in the sphere city managing and planning, with special attention to those with historic or heritage value. As a result, the company has taken part in highly significant plans and projects. As a result, given the professional backgrounds of the team members, the foremost activity focus is on historical centres, in the form of revitalization interventions or rehabilitation, as well as restoration and new construction.
